Experience

SS Enterprises **Feb' 2025 – Mar' 2025**
Corporate Telecom Website (wesse.in)

- Engineered a **fully responsive** corporate **telecom website**, ensuring **seamless cross-device** usability across **desktop**, **tablet**, and **mobile** platforms while maintaining brand consistency and optimized user experience.
- **Implemented** a modern interface using **Tailwind CSS** and **JavaScript**, integrating **dynamic service** modules with **PHP** through a scalable **component-oriented architecture**.
- Deployed the platform on the **live production server (wesse.in)**, ensuring **high-performance** page loading, **SEO optimization**, cross-browser compatibility, and **secure production deployment**.

Projects

Video2Summary | *React.js, Node.js, MongoDB, AI API Integration* **Jan' 2025 – Feb' 2025**

- **Devised** a platform that converts long-form videos into concise **timestamp-based summaries** for quick content understanding.
- **Leveraged** AI APIs to extract **key highlights and structured Markdown summaries** from video content.
- **Streamlined** batch processing with organized storage of **summaries, clips, and screenshots**.
- GitHub Repository: LINK

PulsePoint | *MERN Stack, REST API, Responsive Web Design* **Nov' 2025 - Dec' 2025**

- Developed a responsive web application that aggregates **real-time global news** using **GNews API** integration.
- **Architected** backend services using **Node.js and MongoDB** to manage **API communication**, **data storage**, and **dynamic content delivery**.
- Designed an optimized interface ensuring **smooth navigation**, **fast rendering**, and **seamless user experience** across devices.
- GitHub Repository: **LINK**

LyricAI | *JavaScript, API Integration* **Aug' 2025 – Sept' 2025**

- Created a web platform that generates **personalized song lyrics** using **AI-based API integration**.
- **Constructed** an interactive interface enabling users to generate **customized lyrics** instantly.
- Enhanced frontend performance to achieve **fast response rendering** and **smooth user interaction**.
- GitHub Repository: **LINK**

Certificates

Master Generative AI & AI Tools — *Udemy* **Aug' 2025**
Mastering Java for Application Development — *Lovely* Professional University **July 2025**
MongoDB Basics for Students — *MongoDB* **July 2025**

Technical Skills

Languages: C, C++, JavaScript, Python, Java
Frontend: HTML5, CSS3, Tailwind CSS, React.js
Backend: Node.js, Express.js, PHP
Databases: MongoDB, PostgreSQL
Tools & Platforms: Git, GitHub, Ubuntu, VS Code
Core Skills: Data Structures & Algorithms, Problem Solving, REST API Development, CRUD Operations, Responsive Web Design

Education

Lovely Professional University Punjab **2023 – Present**
Computer Science and Engineering — CGPA: 7.27 *Jalandhar, Punjab*

MPS International School **2018 – 2019**
12th with Science — Percentage:72 *Jaipur, Rajasthan*

MPS International School **2016 – 2017**
10th — Percentage: 91 *Jaipur, Rajasthan*
